

Setting and Mood Unit Project

PROJECT: Create a **diorama** of one scene from Naomi Shab Nye's "Going Where I'm Coming From" in which the setting greatly affects the character(s). Then write a **one-page description** about what you created.

A **diorama** is a 3D model of a scene or environment. To create your diorama, feel free to experiment with different media: paper, clay, wood, paint, string, or objects around your home! Check out the examples below for inspiration.

Your **one-page response** should include a summary of the scene you chose, at least one quote from the text, and an explanation of how that scene affected the character(s).
