Homework 03/09

How We Hear Sound

Parts of the Ear. Match column A with column B.

- | | | | |
|----------|------------|----|---|
| _____ 1. | inner ear | a. | It collects sounds and is at the outer ear area. |
| _____ 2. | pinna | b. | Made up of the pinna and ear canal. |
| _____ 3. | eardrum | c. | It is made up of the ear drum. |
| _____ 4. | outer ear | d. | It sends a message to our brain to tell us about the sounds that we hear. |
| _____ 5. | cochlea | e. | When sound reaches this part, it shakes or vibrates. It helps sounds reach inner ear. |
| _____ 6. | middle ear | f. | It sends sounds into the middle of the ear. |
| _____ 7. | ear canal | g. | It is made up of the cochlea. |

Write the name of the part on the line provided.
