# Systems of Equations Project-Based Tasks Choice Board 

Name:
Date:
Class:

## Due Oate:

## Choose two of the tasks below to complete. Each task is worth 25 points for a total of 50 points.

| Task A: $\quad$Points <br> Earned | Task B: $\quad$Points <br> Earned | Task [: $\quad$Points <br> Earned |
| :---: | :---: | :---: |
| Write one system of equations that is dearly easiest to solve using graphing. one that is clearly easiest to solve using substitution, and one that is clearly easiest to solve using elimination. Explain in complete sentences why the particular method is best for each Solve and show all work. | Draw a conic strip that includes a realworld situation with a system of equations Be sure to include the solution and an explanation of its mearing in your comic strip in a creative was. Show work on the back or on a separate paper. | Design a graphic organizer that contains information about solving systems of equations Include the three methods for solving as well as the different types of solutions that are possible as results for a system of equations. |
| Task D: $\quad$Points <br> Earned | Task E: $\quad$Points <br> Earned: | Task F: $\quad$Points <br> Earned |
| Write a short stors that contains a situation that can be represented by a system of equations with two variables and two equations. Show all work to solve the system using all three methods (graphing. substitution, and elimination). Include an explanation of the solution as it relates to your stors. | Create a video or song that contains information about systems of equations Include instructions for solving using each method. Be sure to also explain the different types of solutions that are possible as results for a system of equations. Include a real world example | Create a game crossword puzzle, quiz, or other activity that includes either practice. vocabulars, or concept review for systems of equations. Indude an answer key. |

|  | Graphing | Substitution | Elimination |
| :---: | :---: | :---: | :---: |
| System |  |  |  |
| Explanation <br> (why this <br> method is <br> easiest) in <br> complete <br> sentences |  |  |  |
| Work |  |  |  |
| Solution |  |  |  |
